

The magazine that “transports” news and “delivers” information

- Published since 2000.
- The first magazine in Greece and one of the first ones in Europe to be fully specialized in the science of logistics and the specific market.
- It reports in absolute accuracy and unique consistency the contemporary history of Greek transport, storage, distribution and related technologies, but also leading events and the most important trends in the global industry of logistics.
- It is read by logisticians and high-rank executives of commercial and industrial businesses, entrepreneurs, logistics workers, professionals and suppliers of the sector, consultants, scholars, students, etc.
